

Vishen Pillay is a partner in the patent department of Adams & Adams Attorneys, the largest intellectual property (IP) law firm in South Africa. He has a background in electronic engineering (UKZN) and is an admitted attorney as well as a qualified patent attorney.

Having approximately 15 years of experience in IP (11 years of post-qualification experience), Vishen specialises in assisting his clients to protect their inventions in the fields of electronics, software, artificial intelligence, quantum communication and computing, radar, telecommunications, mechanical engineering, electro-mechanical engineering, and bio-medical engineering. In particular, he deals with all matters relating to filing and prosecution of patent and design applications in South Africa and abroad, as well as IP strategy.

Vishen has drafted and successfully prosecuted patent and design applications on behalf of many South African Universities, Science Councils, US Fortune 500, and South African Top 100 companies. He currently serves as one of the members of the Management Committee of Adams & Adams and was appointed by the South African Department of Science and Technology to serve on the Advisory Board of the National Intellectual Property Management Office (NIPMO). Vishen is also one of the co-founders and current co-chair of the American Intellectual Property Law Association (AIPLA ) Africa sub-committee.
