

Research on the Innovative use of Technology for Teaching

***Guest presentation: Sara Muršić
Edge Hill University***

***Showcase: Research on the
Innovative use of Technology for
Teaching and Learning***

1 Purpose of the Technology in Research Showcase

This Technology Showcase will serve as an opportunity for lecturers/members from all three campuses to share the technology they are currently integrating, how they are integrating it and the challenges they are experiencing. TELIT-SA will also then provide the opportunity to provide feedback/advice on how the lecturer can then utilise the teaching and learning strategies for research purposes. This will give TELIT-SA the opportunity to assist lecturers/members in conceptualising research projects.

2 Proposed structure of the Technology Showcase

Lecturers from all three campuses, who have previously or are currently integrating the use of technology in teaching and learning, will be invited to present a short 10 minute presentation (8 slides on a template that will be provided by TELIT-SA) on the following:

- Background on the Module in which the use of technology was integrates
- What technology have been/are used
- Why this technology
- How was it integrated
- What was the result
- Challenges experienced
- Advice on what to do differently
- How can this technology be integrated in other subject areas

After the 10 minute presentation a short discussion session will take place on how lecturer can utilise the integration of technology in teaching for research purposes to ultimately develop research-informed strategies.

3 Expert Guest: Sara Muršić (Edge Hill University)

Sara Muršić is from Edge Hill University and have vast experience in developing and integrating technology for innovative teaching. She will be visiting South Africa and the TELIT-SA in September (9-13 September 2019). She will also do a presentation on her work and research and will contribute during the discussions.

4 Date & Venue

The Showcase will take place on Thursday, 12 September 2019 on the NWU Vaal Campus, from 08:00-13:00 in Building 8-101.

5 Target Presenters & Audience

Presenters: Any lecturer who have integrated, or are currently integrating the use of technology in teaching & learning practices/strategies

Audience: Any lecturer who have integrated, or is currently integrating, or planning to integrate the use of technology in teaching & learning practices/strategies
