

Be Power Wise

Reduce the use

Know your load shedding schedule, find regular NWU load shedding information and the NWU live energy indicators to assist you with your planning and to stay ahead with your studies.

Visit the Eskom load shedding webpage:

<https://loadshedding.eskom.co.za/>

| http://www.eskom.co.za/Pages/LS_schedules.aspx

Visit the NWU Emergency Power Management (EMP) webpage:

Download the App:

EskomSePush (Apple App Store / Google Store)

Download Loadshedding Notifier (Apple App Store / Google Store)

Plan, Do and Act

- Plan, do and act by starting early and submitting academic assignments before the set due dates.
- Use daylight time to your advantage.
- Ensure you charge your electronic devices during non-load shedding times.

Visit the NWU Centre for Teaching and Learning (CTL) for information and links on students' academic development and support, data saving tips and free mobile app to optimise academic success.

On campus

- Do your part and switch of electrical appliances off during load shedding (example. heaters, fans, hairdryers, microwaves, freezers, stoves and unnecessary lights).
- Use the NWU libraries to study, read and do assignments – especially when residences do not have power.

Visit the link below to see hours and directions of the NWU libraries.
