1. MISSION STATEMENT

The Faculty of Human and Social Sciences, as an integral part of the North West University is committed to responding to the developmental, policy, cultural and human resource needs of the people of South Africa as a whole and the North West Province in particular. Its mission is to provide students with a balanced, relevant academic and professional experience, quality qualifications and comparable marketable skills which will enable them to contribute significantly to the socio-economic, cultural and political development of the country, particularly the North West Province.

The Faculty commits itself to promoting research and innovation at all levels and further undertakes to prepare students for leadership and life-long learning.

Through community service activities undertaken by staff and students, the Faculty also aims at building variable reciprocal partnerships between itself and various organisations, business sector and governmental structures within and outside the province.

2. AIMS AND OBJECTIVES

- 2.1 To educate and train students for entry into the professions of Psychology and Social Work in accordance with the objectives of statutory bodies that regulate the training.
- 2.2 To prepare students for a range of inter disciplinary vocations which cater specifically for the needs of the rural character of the province.
- 2.3 To foster the appreciation and promotion of Southern African cultures and languages, specifically the previously marginalised languages such as Setswana.
- 2.4 To promote multi-lingualism and develop oral, written and visual communicative skills.

- 2.5 To encourage creative expression, ethical appreciation and foster critical, intellectual and analytical thinking.
- 2.6 To provide a resource to government organised labour, business community and international organisations through undertaking research, training and learning in demography / population and sustainable development, labour studies, land reform, tourism, international relations and peace studies.
- 2.7 To broaden the content knowledge and nature of the disciplines offered by service providers such as teachers, censors field workers, language practitioners and specialists.
- 2.8 The faculty commits itself to a sound, interdisciplinary bridging or foundation programme, thereby enhancing participation and graduation rate benchmark.
- 2.9 To equip communities with appropriate knowledge and skills through community outreach activities.

MH.1 FACULTY RULES**MH.1.1 AUTHORITY OF THE GENERAL RULES**

The faculty rules valid for the different qualifications, programmes and curricula of this faculty and contained in this faculty calendar are subject to the General Rules of the University, as determined from time to time by the Council of the University on recommendation by the Senate. The faculty rules should therefore be read in conjunction with the General Rules.

MH.1.2 FACULTY-SPECIFIC RULES

Refer to the General Academic Rule.

MH.1.3 GENERAL RULES FOR THE DOCTOR OF PHILOSOPHY

These rules must be read in conjunction with the General Rules for the Degree of Doctor of Philosophy.

A candidate must, in the course of the doctoral study, prepare a publication on a topic related to the theme of the thesis for publication in a human or social science (or related) journal or scholarly work to the satisfaction of the supervisor and present it for publication before the thesis may be submitted for examination.

A PhD programme carries 360 credits.

MH.1.4 WARNING AGAINST PLAGIARISM

Assignments are individual tasks and not group activities (unless explicitly indicated as group activities). For further details refer to the General Academic Rules.

<http://www.nwu.ac.za>

MH.1.5 CAPACITY STIPULATION

Please take cognizance of the fact that, owing to specific capacity constraints, the University reserves the right to select candidates for admission to certain fields of study. This means that prospective students who comply with the minimum requirements may not necessarily be admitted to the relevant courses.

MH.1.55 RULES FOR THE DEGREE MASTERS OF THEOLOGY –

MH.1.55.1 Duration (minimum and maximum duration)

The minimum duration of the study is one year, and the maximum three years.

The provisions of rule A.13.5.2 which govern the exceeding of the maximum duration of the study are applied. Students must familiarise themselves with these provisions.

MH.1.55.2 Admission requirements for the qualification

Admission to Master's study is according to rule A.13.1.

With due consideration of the exceptions which may be approved by Senate, the subjects to be studied for this degree are as follows:

- a) one of the subjects in which the student has obtained an Honours Baccalaureus degree or in which the status of such a Baccalaureus degree has been conferred on him/her; or
- b) the subject in which the student has completed a four-year degree or the status of such a degree has been conferred on him/her.

In order to gain admission to master's study, the subject group may, on the recommendation of the Director of the School, require additional work in Greek, Semitic Languages and theory of textual interpretation. Students are admitted provisionally to the relevant curriculum until they have fulfilled such possible requirements.

Admission to MA is handled by the Director of Research, in consultation with the probable study supervisor. Selection is based on academic results and previous assignments and/or research results. A module in research methodology may also be prescribed.

MH.1.56 CURRICULUM: THEOLOGY (WITH DISSERTATION)**MH.1.56.1 Programme Outcomes:**

Students must be capable of handling relevant literature over a broad spectrum of the subject field, and the dissertation must contribute to that field within the current South African situation.

Identify main actors in community development and their specific roles. Apply communication, motivation and mediation skills in facilitating community development. 		
Assessment modes: Formative and Summative		
Module code: HDEV 671	Semester 2	NQF level:7
Title: Research Project		
Module outcomes: At the end of the module students should be able to: <ul style="list-style-type: none"> Produce a Research proposal. Conduct an independent research and report on it. 		
Method of delivery: Formal		
Assessment criteria: Conduct independent or group research.		
Assessment modes: Written Research Project is examined		

MH.1.110.2 DEVELOPMENT STUDIES – MASTERS

Module code: HDEV 875	Semester 1	NQF level:8
Title: Development Theory		
Module outcomes: To develop a critical understanding of the development		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		
Module code: HDEV 877	Semester 1	NQF level:8
Title: Development problems and issues		
Module outcomes: To identify and discuss in detail some topical problems and issues that may Retard, accelerate and promote the development process in the world.		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		
Module code: HDEV 873	Semester 1	NQF level:8
Title: Mini-Dissertation		
Module outcomes:		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		
Module code: HDEV 878	Semester 1	NQF level:8
Title: Sustainable Development		
Module outcomes :To develop a critical understanding of the importance of sustainable Development		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		
Module code: HDEV 879	Semester 1	NQF level:8
Title: Community Development		
Module outcomes: To develop a critical understanding of the processes of empowering Community		
Methods of Delivery: Contact teaching		

Assessment Modes: Summative and Formative		
Module code: HDEV 876	Semester 1	NQF level:8
Title: Gender issues and development		
Module outcomes: To equip students with tools for gender mainstreaming in development		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		
Module code: HDEV 881	Semester 1	NQF level:8
Title: Development, planning, policy and management		
Module outcomes: To develop an in-depth knowledge among students of the importance of Development planning, policy and management		
Methods of Delivery: Contact teaching		
Assessment Modes: Summative and Formative		

MH.1.110.3 DEVELOPMENT STUDIES – PhD

Module code: HDEV 971	Semester 1,2,3,4	NQF level:9
Title: PhD Thesis Based on Topic of Student's Own Choice		
Module outcomes: Producing a copy of a coherent treatment of a well research subject reflecting significantly high levels of critical thinking, breadth and depth of analyzing, synthesizing and evaluating information and ideas from a wide range of sources by deploying a wide variety of research methods.		
Methods of Delivery: Research mode of teaching		
Assessment Modes: Oral, portion of work presented at the end of each chapter, final assessment of entire thesis.		

MH.1.111 LAND REFORM AND RURAL DEVELOPMENT – MASTERS

Module code: HLND 813	Semester 1	NQF level:8
Title: Comparative Land Tenure Institutions and Tenure Systems		
Module outcomes: To facilitate the development of a critical understanding and analysis among Students of country-case studies of land tenure intuitions and tenure systems Including their impact on rural development and social change.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HLND 814	Semester 1	NQF level:8
Title: Drought , Floods and Famine In Developing Countries		
Module outcomes: To inculcate knowledge and skills among students which will enable them to: Explain in a comparative approach indigenous survival strategies against drought, Floods and famine; factors influencing the intensity, duration and discharge of Floods; governmental and non-governmental policy strategies to famine Prevention; and demonstrate knowledge and ability to promote these indigenous Strategies for sustainable rural livelihoods.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HLND 815	Semester 1	NQF level:8
Title: Comparative Models of Rural Development Policy Strategies.		

Module outcomes: To equip students with critical approaches in the analysis of the different policy Strategies associated with the problem of rural development in the developing Countries.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HLND 821	Semester 2	NQF level:8
Title: Rural Poverty in Developing Countries		
Module outcomes: To expose the students to a critical analysis of the concepts and theories of Poverty; measurements and indicators of rural poverty; social; economic; Psychological and gender implications of rural development.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HLND 822	Semester 2	NQF level:8
Title: Rural Energy Forms and Users		
Module outcomes: To impart knowledge among students for a critical comparative understanding of Different energy forms, sources and uses; and develop awareness of domestic Waste as an energy source; the ability to promote the role of energy in rural Development		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HLND 823	Semester 2	NQF level:8
Title: Rural Small-Scale Industries.		
Module outcomes: To provide students with knowledge on the role of small-scale industries in rural Development especially in rural poverty eradication.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral work, and module –end examinations		
Module code: HIKS 821	Semester 2	NQF level:8
Title: Indigenous Knowledge, Cultural-Bio-Diversity, Conservation and Sustainable Development.		
Module outcomes: To enable the students to be conversant with the key concepts and issues Associated with indigenous sustainable human development; and ability To explain the historical trends and strategies of related conservation of Cultural and bio-diversity for sustainable development		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral-work, fieldwork and module-End summative examination.		
Module code: HLND 812	Semester 2	NQF level:8
Title: Seminar on Media of Social Science Research		
Module outcomes: To equip students with knowledge and techniques of research proposal writing, Data gathering, data analysis and research report writing		
Method of delivery: Contact and practical modes of teaching		

Assessment modes: Assessment of students in seminars, in oral-work, fieldwork and module-End summative examination.		
Module code: HLND 873	Semester 2	NQF level:8
Title: Mini-Dissertation		
Module outcomes: To enable students to demonstrate the ability to conduct ad report on independent Research at Masters level. It length is not to exceed 80 typewritten pages.		
Method of delivery: Contact and practical modes of teaching		
Assessment modes: Assessment of students in seminars, in oral-work, fieldwork and module-End summative examination.		

MH.1.111.1 LAND REFORM AND RURAL DEVELOPMENT - PhD

Module code:HLND 971	Semester 1,2,3,4	NQF level:9
Title: PhD Thesis Based on Topic of Student's Own Choice		
Module outcomes: Producing a copy of a coherent treatment of a well research subject reflecting significantly high levels of critical thinking, breadth and depth of analysing, synthesising and evaluating information and ideas from a wide range of sources by deploying a wide variety of research methods		
Method of delivery: Research mode of teaching		
Assessment modes: Oral, portion of work presented at the end of each chapter, final assessment of entire thesis.		

MH.1.112 POPULATION STUDIES - HONOURS

Module code: HPOP 611	Semester 1	NQF level:7
Title: Introduction to the History of World Population Trends and Patterns An Overview. Introduction to Substantive Issues in Population Studies.		
Module outcomes: To introduce nature, pattern, causes and consequences of the world Population growth and its sub divisions including Africa.		
Intended Outcomes:At the end of the modules the student will,be able to: <ul style="list-style-type: none"> • Demonstrate an understanding of the demographic make up of the world, regionsand South Africa. • Appreciate an understanding of substantive issues in Popiulation Studies. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Formative and summative		
Module code: HPOP 612	Semester 1	NQF level:7
Title: Introduction to the Dynamics of Population Change		
Module outcomes: To introduce students to basic demographic concepts and measures Needed for understanding population dynamics and provide an overview Of the multidisciplinary nature of demography as a subject of study.		
Intended learning outcomes:At the end of the modules, the student will be able to: <ul style="list-style-type: none"> • Understand the relevance of demography/population studies in sustainable development. • Evaluate and adjust demographic data. • Apply and interpret demographic measures. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Formative and summative		
Module code: HPOP 613	Semester 1	NQF level:7
Title: Economic-Population Growth Models		

Module outcomes: The objectives of this module is to introduce population theories and models.		
Intended learning outcomes :At the end of the module ,student will be able to;		
<ul style="list-style-type: none"> Understand population and economic growth concepts and models. Appreciate the implications of demographic factors on economic growth. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Formative and summative		
Module code: HPOP 621	Semester 2	NQF level:7
Title: Population Growth and Economic Development: The Debate		
Module outcomes: To introduce various discussions regarding the interrelationship between Population growth and economic development.		
Intended learning outcomes :At the end of the module , student will be able to:		
<ul style="list-style-type: none"> Understand population problems. Evolution of population debates. Understand the importance of population conferences and their programme of actions. 		
Method of delivery :Lecturers, Assignment Reading, Tutorials		
Assessment modes: Class/ Laboratory Exercises, Written Assignments Written Examinations		
Module code: HPOP 622	Semester 2	NQF level:7
Title: Population Problems and Policies/Population and Planning		
Module outcomes:		
The objective of this module is to familiarize students to population problems and planning.		
Intended learning outcomes:At the end of the module , student will be able to :		
<ul style="list-style-type: none"> Distinguish between population issues, concerns and problems. Appreciate population problems and policies in South Africa, the region and Africa as a whole. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes :Formative and Summative		
Module code: HPOP 623	Semester 2	NQF level:7
Title: Population Change, Gender and the family		
Module outcomes:		
The objective of this is to stimulate discussion among students on the interrelationships between population change, gender and the Family		
Intended learning outcomes:At the end of the module , the student s will be able to :		
<ul style="list-style-type: none"> Understand the interrelationships between population, gender and family. Appreciate the need for gender-desegregated data. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Formative and Summative		
Module code: HPOP 624	Semester 2	NQF level:7
Title: Population and Resources		
Module outcomes:		
To equip students with knowledge and understanding of the interrelationship between Population, Resource and Environment and the effects of population on Natural and Human Resources.		
Intended learning outcomes:At the end of the module , the student will be able to :		
<ul style="list-style-type: none"> Understand the relationship between population and resources. Understand the linkages between population and the environment. Understand the impact of population growth on education, employment, urbanization, health, food supply and the environment.: 		

Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Class/ Laboratory Exercises, Written Assignment, Written Examinations		
Module code: HPOP 671	Semester 2	NQF level:7
Title: Introduction to Research Methods		
Module outcomes: To equip students with the necessary skills to conduct an independent demographic research project and analyse statistical data. Intended learning outcomes: At the end of the module , student will be able to:		
<ul style="list-style-type: none"> • Demonstrate an understanding of the basic concepts and methodologies used in the collection and analysis of basic demographic and socio-economic data. • Demonstrate an understanding of the basic concepts in data collection. • Calculate and interpret statistical data. 		
Method of delivery: Lecturers, Assignment Readings, Tutorials		
Assessment modes: Formative and summative		
Module code: HPOP 672	Semester 2	NQF level:7
Title: Mini-Dissertation		
Module outcomes: Carry out a research project on a specified subject reflecting a wide range of research methods, capacity for critical thought and analysis of demographic data. Intended learning outcomes:At the end of the module , student will be able to :		
<ul style="list-style-type: none"> • Design and conduct an independent study in the area of demography/ population studies. 		
Method of delivery: Lecturers, Assignment Reading, Tutorials		
Assessment modes: Formative and summative		

MH.1.112.1 POPULATION AND SUSTAINABLE DEVELOPMENT - MASTERS

Module code: HPOP 811	Semester 1	NQF level:8
Title: Population and Development		
Module outcomes: To introduce students to the interrelationship between population and development. Intended learning outcomes : At the end of the module , the student will be able to:		
<ul style="list-style-type: none"> • Understand population and development concepts. • Understanding the relationship between population growth and resource utilization. • Understanding the implication of demographic factors on socio-economic development. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Formative and summative		
Module code: HPOP 812	Semester 1	NQF level:8
Title: Population Processes: Fertility, Morality and Migration – A Review		
Module outcomes:To introduce students to advanced demographic concepts and measures needed for understanding population dynamics and provide an overview of the multidisciplinary nature of demography as a subject of study. Intended learning outcomes :At the end the student will be able to :		
<ul style="list-style-type: none"> • Calculate and interpret various demographic parameters. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Class/Laboratory Exercise, Written Assignment , Written Examinations		
Module code: HPOP 821	Semester 1	NQF level:8
Title: The Family, Family Formation and Dissolution, Household		
Module outcomes:To familiarize students with measures and concepts for understanding		

household and family dynamics. Intended learning outcomes:At the end of the module , the student will be able to : <ul style="list-style-type: none"> Calculate and interpret various measures used to study nuptiality and understand the factors affecting marriage patterns. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Class/Laboratory Exercise, Written Assignment , Written Examinations		
Module code: HPOP 822	Semester 1	NQF level:8
Title: Population Projections with Particular Reference to Development Planning		
Module outcomes: To introduce methods of population projections at national as well as sub national levels Intended learning outcomes:At the end of the module the student will be able to : <ul style="list-style-type: none"> Understand and apply methods of population projections. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Formative and summative		
Module code: HPOP 823	Semester 1	NQF level:8
Title: Population Policies Relevant to Population Processes and Strategies of Development		
Module outcomes:To impart knowledge and understanding of population planning and policy issues. Intended learning outcomes:At the end of the module , the student will be able to : <ul style="list-style-type: none"> Understand population issues relevant to development strategies. Understand purposes of planning. Understand policy directives and measures. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Formative and summative.		
Module code: HPOP 813	Semester 1	NQF level:8
Title: Techniques of incorporating Demographic Variables in Developing planning		
Module outcomes: To introduce techniques for incorporating demographic variables in development planning. Intended learning outcomes:At the end of the module , the student will be able to: <ul style="list-style-type: none"> Understand and use techniques for incorporating demographic variables in development planning. 		
Methods of Delivery: Lecturers, Formative and summative		
Assessment Modes: Class/Laboratory Exercise, Written Assignment , Written Examinations		
Module code: HPOP 814	Semester 1	NQF level:8
Title: Basic Demographic and Socio-Economic Data for use in Development Planning Use of Census and Survey Data		
Module outcomes: To present the need and relevance of demographic data as collected in censuses and survey in development planning. Intended learning outcomes :At the end of the module , the student will be able to: <ul style="list-style-type: none"> Evaluate demographic and socio-economic data collected in population censuses. Understand the use of demographic and socio-economic data in development planning. Review basic demographic concepts and measures needed for understanding population dynamics. Provide students with an overview of the use of demographic data in development planning. 		
Methods of Delivery: Lecturers, Assigned Reading, Tutorials		
Assessment Modes: Formative and summative.		
Module code: HPOP 873	Semester 1	NQF level:8
Title: Mini- Dissertation		
Module outcomes: To introduce skills necessary to carry out demographic research		

Intended learning outcomes: At the end of the module, the student will be able to : <ul style="list-style-type: none"> Design and conduct an Independent study in the area of demography/population studies.
Methods of Delivery: Lecturers, Assigned Reading, Tutorials
Assessment Modes: Formative and summative

MH.1.112.2 POPULATION STUDIES –PhD

Module code: HPOP 971	Semester 1,2,3,4	NQF level:9
Title: PhD in Population Studies		
Module outcomes: To enable students pursue research projects through identification of complex problems and achieve solutions through application of appropriate research skills. Intended learning outcomes: At the end of the module, the student will be able to : <ul style="list-style-type: none"> Design and Conduct an independent study in the area of demography / population studies. Ability to contribute to the body of knowledge. 		
Method of delivery: Contact between student and supervisor		
Assessment modes: Formative and summative.		

MH.1.113 PSYCHOLOGY: HONOURS

Module code: PSYC 671	Semester 1	NQF level:8
Title: Psychometrics		
Module outcomes: After completion of the module successful students should be able to – <ul style="list-style-type: none"> demonstrate a comprehensive and systematic knowledge base and critical understanding of factors that helped shape psychological assessment internationally and in South Africa, and which continue to steer it today, as well as the nature and process of psychological evaluation; demonstrate the skill to rate the utility of tests according to their psychometric properties, and evaluate and interpret the performance of individuals in various tests or test batteries (Students should also be able to use the basic properties and technical requirements of tests, including the way in which tests and their testing norms are developed, as individuals and in group context, to develop a new psychological measuring instrument to be used in a complex and real-life problem situation.); demonstrate the ability to combine test scores, do cross-cultural test adjustments and interpret these; manage tests and ethical standards; take care of administrative arrangements involved in assessment procedures; and communicate test results to an audience of peers in the form of written research reports, or orally while using appropriate IT; demonstrate the ability, individually or in group context, to undertake appropriate literature searches to serve as frame of reference when reasoning about the above aspects; and reflect on the impact of the study material on the self as a person and as a future care giver. 		
Methods of Delivery:		
Assessment Modes		
Module code: PSYC 672	Semester 1	NQF level:8
Title: Psychological Evaluation		
<ul style="list-style-type: none"> Module outcomes: demonstrate a comprehensive and systematic knowledge base and critical understanding of the processes of psychological evaluation aimed at providing an holistic picture of the child, adolescent and/or adult; 		

<ul style="list-style-type: none"> demonstrate a coherent and critical understanding of various methods of evaluating psychological functioning and apply them ethically; apply a comprehensive knowledge of the core methods of psychological evaluation to clearly defined unfamiliar case studies; critically evaluate qualitative and quantitative outcomes of psychological evaluation and synthesise them into a conclusion contained in a well-structured report meant for a probable reader; and demonstrate the ability independently to garner information from appropriate research articles and other reliable sources, critically to analyse the information and synthesise it, and to present findings in relevant academic and professional discourse. 		
Methods of Delivery:		
Assessment Modes		
Module code: PSYC 673	Semester 1	NQF level:8
Title: Applied Positive Psychology		
<ul style="list-style-type: none"> Module outcomes: Demonstrate a comprehensive knowledge base of Positive Psychology/Psychofortology as a movement in the field of Psychology, as well as the important paradigms, theories, concepts and ethical aspects that have a bearing on psychological health, and to apply them in order to identify and facilitate the functioning of the self and others in a multicultural context; apply relevant theories/research in cultural context while being sensitive to biopsychological coherence in order to contextualise behavioural problems and facilitate psychosocial wellness from a positive psychological/psychofortological perspective; demonstrate the ability to resolve complex and poorly defined modern-day problems that relate to psychological and psychosocial health, by using appropriate procedures and reliable evidence from a critical analysis of various theories in Positive Psychology/Psychofortology, as well as communicate the information in a reliable and coherent manner, both orally and in writing, thereby providing evidence of effective and critical reasoning; <p>apply a variety of specifically selected research-based strategies in a moral-ethical and culture-sensitive way in order to promote positive psychological wellness in individuals, groups and communities while recognising important biopsychosocial associations and being sensitive to, among other things, collectivistic and individualistic value systems</p>
